# *A LITTLE BIT OF OUR HISTORY*

This part of Poland was inhabited (occupied) by „Słężanie” – a slavian tribe- during the VI century. They built their settlement in one of the „islands” of the city. Then a czech prince Wratislav helped them to protect this settlement. That’s why we have a name „Wrocław” – „Wratislavia” – due to his name. It’s just a legend but for sure the name of our city is conected with a very old slavian name.

Wrocław is one of the eldest city in Poland.

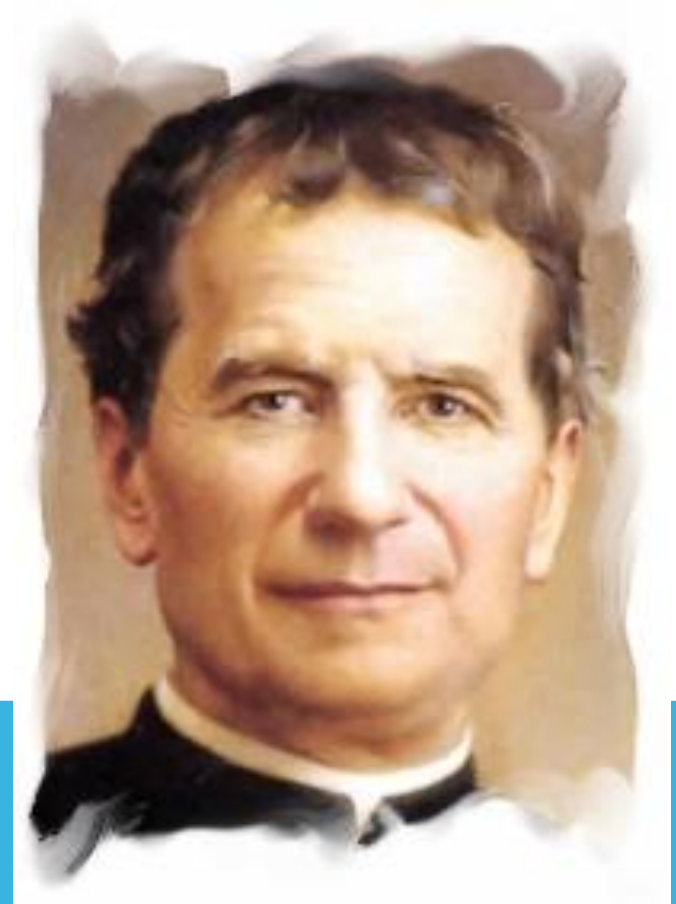

It’s a special place in Europe because it’s a city of three countries.

It was ruled by Polish, Czech and German monarchs.
